

REGISTRATION DETAILS

Registration Fees	
Industry Professionals	: Rs. 3000
Academicians	: Rs. 1000
Research Scholar & UG / PG Students	: Rs. 750
Note: Registration fee includes Workshop Kit, Lunch and refreshments	

REGISTRATION LINK

<https://forms.gle/x4BUfozcvHY18tD79>

Last Date of Registration: 11.11.2025

TARGET AUDIENCE

- Industry Professionals
- Academicians
- Research Scholars
- UG / PG Students

ADDRESS FOR COMMUNICATION

Dr. P. BASKARA SETHUPATHI

Assistant Professor (Sr.G)
Centre for Automotive Materials
Dept of Automobile Engineering
SRM Institute of Science and Technology,
Kattankulathur 603203 TN India.
Mobile : +91- 9445700101 / 9176958220
Email : sethupab@srmist.edu.in

In association with

CHIEF PATRON

Dr. T.R. Paarivendhar, Chancellor, SRMIST
Dr. Ravi Pachamuthu, Pro-Chancellor (Administration), SRMIST
Dr. P. Sathyanarayanan, Pro-Chancellor (Academics), SRMIST

PATRON

Prof. (Dr.) C. Muthamizhchelvan, Vice Chancellor, SRM IST
Prof. (Dr.) S. Ponnusamy, Registrar, SRM IST
Prof. (Dr.) M. Leenus Jesu Martin, Dean (CET), SRM IST
Prof. (Dr.) B. Neppolian, Dean (Research), SRM IST
Prof. (Dr.) M. Cheralathan Chairperson, SME, SRM IST
Prof. (Dr.) K. Kamalakannan, HoD, Automobile Engg., SRMIST

ADVISORY COMMITTEE MEMBERS

Mr. T R Parasuraman - Chairman, ASSOCHAM Karnataka State Development Council, Bangalore
Dr. A. S. Ramadhas, Director, Global Automotive Research Centre, Chennai
Dr. S. Dhanalakshmi, Additional Director (PM&HR), CVRDE, Avadi, Chennai.
Mr. K N Balaji, Professor of Practice, SRMIST Kattankulathur.
Prof. (Dr.) V. Balasubramanian, Professor & Director (CEMAJOR), Annamalai University, Chidambaram
Mr. Anantharaman Prakash, Vice President, Advance Engineering, RNTBCI, Chennai
Dr. Shankar Venugopal, Vice President, Mahindra & Mahindra, Chennai.
Mr. Srinivasa Rao, Sr. Vice President (R&D), TAFE, Chennai.
Mr. Piyush Jain - Senior General Manager, Vehicle Dynamics. Maruti Suzuki, Delhi
Mr. R. Govindarajan, Head - Product Development, Global Testing and Validation, Royal Enfield, Chennai.
Mr. E. Ramasubbu - Deputy General Manager, Hero Motocorp Ltd., Jaipur
Mr. Velappan Kumar, Global Quality Director - Tenneco Braking, Chapel en le Firth, United Kingdom
Mr. R. Silambarasan, Brake NVH Engineer, Jaguar Land Rover, United Kingdom
Mr. Prasad Arunkumar, Assistant General Manager, Tivolt Electric Vehicles, Chennai
Mr. S. Sundar, Sr. Vice President, SRM Technologies, Chennai.
Mr. M P Raajha - CEO, Bethel Automotive Safety Systems, Pune
Mr. T. N Venkataramani, Vice President - R&D, Hindustan Composites Limited, Aurangabad, Maharashtra.
Mr. N.S.R. Kanna, Vice President, Composites, Sundaram Brake Lining Ltd., Chennai
Mr. Balaji Srinevasan, Senior Vice President - R&D, Rane Brake Linings, Chennai
Mr. Srikanth Venkatesan, Vice President, Brakes India Pvt. Ltd., Chennai
Mr. P.K. Denesh, Deputy General Manager - R&D, JM Frictech India Pvt. Ltd. Chennai
Mr. Devarajulu, Head of R&D, Hitachi Astemo Automotive, Pune
Dr. Mukesh Kumar, General Manager, Allied Nippon Ltd., Ghaziabad
Mr. Muruges Balaguru, Business Head, Carlisle Brake & Friction, Chennai
Dr. Vijay Subramanian, India Representative, Alroko GmbH & Co. KG, Germany
Dr. Gnanadurai T, Senior General Manager, MAT holdings, Sonapat
Mr. S. Habib Rahmathulla, Managing Director, FRICMART, New Delhi
Mr. C. Thiruvassagan, Managing Director, Huehoco India Group Pvt. Ltd., Chennai
Mr. E. Maheswaran, Director, Wolverine Advance Materials, Chennai
Mr. Nirmalendu Chatterjee, Global Sales Leader, ITT Inc. Pune
Mr. Rishi Sehgal, Director, Starke International Exim Pvt. Ltd., Dharuhera
Mr. Abhishek Rathi, Director TAPRATH Elastomers, Palghar
Mr. D. Vasu, CEO, Neuron Material Science, Chennai
Mr. P.M. Venkatasamy, Managing Director, Pyramid Precision Engineering India (P) Ltd., Chennai
Ms. Meenakshi Vidudala, Director, Anourav Innovative Materials Pvt., Ltd., Bangalore.
Mr. Satya Priye, Director, Satya Cashew Chemicals (P) Ltd., Chennai
Dr. D. Lenin Singaravelu, Professor, NIT Trichy
Dr. A. Arul Jeya Kumar, Professor, SRMIST Kattankulathur
Dr. M.A. Sai Balaji, Associate Professor, BSAC IST, Chennai

Two-Day Workshop on SUSTAINABLE APPROACH ON AUTOMOTIVE BRAKE FRICTION MATERIALS FOR MOBILITY APPLICATIONS

Date : 13 & 14 November, 2025

**Venue : Dr. T.P Ganesan Auditorium
Mini Hall 1, SRMIST, Kattankulathur.**

Convenors

Dr. J. CHANDRADASS

Professor,
Head - Centre for Automotive Materials

Dr. P. BASKARA SETHUPATHI

Assistant Professor (Sr.Grade)

Co-convenors

Mr. H. VENKATA GANESH

Managing Director, Adams Engineering Projects, Chennai

Prof. R. RAJENDRAN

Professor

Organized by

Centre for Automotive Materials
Department of Automobile Engineering
School of Mechanical Engineering
SRM Institute of Science and Technology
Kattankulathur - 603203.

ABOUT THE INSTITUTION

SRM Institute of Science and Technology (formerly known as SRM University) was established in 1985 by the Founder Chancellor, Dr. T. R. Paarivendhar. It is one of the top ranking universities in India with over 52,000 full time students and more than 3200 faculty across all the campuses – Kattankulathur, Ramapuram, Vadapalani campus – all in and around Chennai, Tiruchirappalli (in TN), Modinagar (in UP) & Sonapat (in Haryana) – both of which are located near Delhi NCR, Amaravati (in AP), Gangtok (in Sikkim) – offering a wide range of undergraduate, postgraduate and doctoral programs in six Faculties – Engineering & Technology, Management, Medicine & Health sciences, Science & Humanities, Law and Agricultural Sciences. The SRMIST hosted 98th Indian Science Congress Association in 2011. SRMIST has been engaged in nurturing minds through a rich heritage of academic excellence. Essentially a hub of bustling student activities, the green and beautiful campus has been a second home to thousands of students in their journey to pursue higher education. The Institution has moved up through international alliances and collaborative initiatives to achieve global excellence. The SRMIST also collaborates with foreign Universities like MIT, Carnegie Mellon University (CMU), Pittsburgh University etc., offering postgraduate academic program MSITSE. Over 200 students were sponsored to 35 foreign Universities like Carnegie Mellon, UC Davis, Warwick and Western Australia. Now the Institute enjoys an unsurpassed reputation in academia and corporate circles being the preferred manpower source for vision to be recognized as a world-class learning institution. SRMIST has been recognized as Category I University by the Ministry of Human Resources Development (MHRD), Government of India. SRMIST is accredited by NAAC with an 'A++' grade and has been awarded a Four-Star rating by Quacquarelli Symonds (QS), a leading global higher education company. In the NIRF ranking 2025, SRMIST ranked 14th in the Engineering category and 11th in the University category.

ABOUT THE DEPARTMENT

The Department of automobile Engineering at SRM IST was established in 2004 with a vision of being recognized as a department of international repute with strong research and teaching base in automobile engineering and automotive electronics by active collaboration with industries. Aligning with the global challenge of e-mobility, our department works hand in hand

with the industry and government bodies. The department focuses on activities such as development and implementation of new programs (UG/PG) associating with universities across the globe setting up center of excellence for the various industrial requirements and spreading out the research activities. The department has 8 fully functional laboratories and 2 research laboratories, equipped with instruments of recent industrial standards to enable us to achieve academic and research excellence.

ABOUT THE CENTRE FOR AUTOMOTIVE MATERIALS

The Centre for Automotive Materials (CAM) was established in the year 2017 with a focus to develop R&D on Automotive Material. The Centre has a dedicated team of faculties who work in the area of light-weight material systems, friction materials, brake disc material, gear material, material degradation and protection issues. The Centre is equipped with facilities like Linear Reciprocating Tribometer, Corrosion Cell Kit, Resin Infusion Kit, Oven and Furnace. The outcome of the strong research works from the Centre have been published in peer reviewed journals. Within a short span of time the Centre has published more than 100 journal papers, 75 Conference papers, 15 patents and 4 book chapters. The Centre also initiated research collaboration with foreign universities and the outcome was seen in joint publications. The members of the Centre regularly organize guest lectures, workshops, FDP and conferences on friction materials. Previously, the Centre organizes the 4 & 5th Railway Brake and Friction Conference in Collaboration with Brake Friction Conference Ltd, London, UK. The Centre is closely working with several industries providing solutions for critical problems to industries and also finding out new applications for various end products. Students of this Centre are sent to industries like Mahindra and Mahindra Research Valley and Brakes India for internship.

ABOUT THE WORKSHOP

The phasing-out of asbestos in automotive brake friction materials in many parts of the world has sparked the onset of extensive research and development into safer alternatives. As a result, the brake friction industry has seen the birth of different brake pads and shoes in the past decade, each with their own unique composition, yet performing the very same task and claiming to be better than others. The friction material formulation is considered as an art, only mastered by the experienced people. Even though, we could get the fingerprint

of all the ingredients, how they work in combination with different properties, in different proportion is still an unresolved phenomenon. This suggests that the selection of brake friction materials is based more on tradition and experimental trial and error rather than fundamental understanding. This is true especially for those who want to pursue research in the area of friction materials. This workshop aims in bringing the academic and industry experts across the country to share their experience on formulations providing some hindsight about various ingredients, the significance of their size, shape and properties and how they can be used in the formulation to get optimized properties, metal sulphides and its tribochemistry, Lubricant effect, Designing the friction materials, Development of NAO friction materials, Brake fade an introduction, Raw materials used in friction formulations testing procedures, the harmful ingredients and their environmental impact towards the society.

Cascading of valuable experience by academic and industry experts (per training to their domains) will be the key take away for the participants.

THEME OF WORKSHOP

This workshop will cover SDG 3, SDG 9, SDG 12

- **Sustainability**
- **Technology**
- **Innovation**
- **Affordability**
- **Social wellbeing**

KEY TAKE AWAY FROM THE WORKSHOP

- To explore the present and future challenges in Brake Friction industry towards electrified mobility
- To gain technical inputs and know-how sharing direct from industry's stalwarts.
- To have professional connect and networking with experts from brake friction industries across the country.
- To get an introduction with brake friction raw material manufacturers.

RESOURCE PERSONS

This workshop will be having panel discussion & tech talk by eminent speakers from leading OEMs, Brake Friction manufactures, Raw material manufactures, Brake testing agencies, Policy makers, and leading academic institutes & industries in India and abroad.
